RE: Letter of Concern, Case No. 3856

Dear Dr. LeBlanc,

At their meeting on November 10, 2007, the Arizona Board of Osteopathic Examiners in Medicine and Surgery ("Board") conducted a case review with you of the above-referenced complaint. Based on the information presented, the Board found there was insufficient evidence to conclude that your conduct constituted unprofessional conduct or to support direct action against your license. However, the Board voted to issue you this advisory LETTER OF CONCERN pursuant to the provisions of A.R.S. 32-1855 (D) (2). The Board was concerned that your failure to properly supervise your physician assistant could ultimately lead to violations of A.R.S. § 32-1854 (34) which states:

(34) Lack of or inappropriate direction, collaboration or supervision of a licensed, certified or registered health care provider or office personnel employed by or assigned to the physician in the medical care of patients.

The Letter of Concern is a non-disciplinary action that remains part of the public record of your license for five years from the date of issuance. During those years it will be provided in response to requests for copies of your license file or verifications of license status, including being posted on the Board's website. It also may be cited in future actions against your license. Because it is not a disciplinary action, it is not reported to the National Practitioner Data Base or Health Care Integrity and Protection Databank. Based on the information presented, the Board found that there were no violations of state law or rule directly related to the complaint.

Please contact me with any questions, comments or concerns. Thank you.

Respectfyll

Jack Confer

Executive Director
